

Do I have to take anti-malaria medication?

Do I have to take anti-malaria medication?

Mozambique is in the Malaria zone therefore anti malarial medication is recommended. Please consult your local doctor as to the best anti malarial medication available remembering to let the doctor know that you will be diving.

If you are traveling from another African country other than South Africa, you will require vaccination certificates for cholera and yellow fever. This can change periodically so please check with your local travel centre for the latest information.
