

Sylvia's Shoal

Sylvia's Shoal:

If you desire a truly rare dive experience Sylvia's Shoal is the place for you. The main reef is 14km long and has depths ranging from 10m-25m. Imagine splatters of colour surrounding you as tropical fish, soft and hard corals, nudibranchs, Spanish dancers, crayfish, eels, turtles, manta rays and dolphin overload your visual senses! There are also dives to 40m for advanced divers such as Kings Deep - named after a well-known South African underwater photographer. You are greeted by friendly potato bass which are common in the area and many species of reef sharks move gracefully by.
